

The Henry B. and Lillie Perry, Jr. Endowment Fund

Dr. Henry B. and Lillie Perry, Jr., were the parents of Dr. Henry B. Perry, III, Founder of Curamericas Global. H. B. (as he was called) was a beloved obstetrician/gynecologist who practiced in Greensboro, NC for most of his career and where Henry grew up. They had three other children in addition to Henry: Donna, Doris and Susan. Lillie and H.B.'s love for their children, their Christian faith, their commitment to making medical care available to all, and their support for Henry's aspirations to pursue a career in medical missions during his childhood and college years were instrumental for Henry's commitment to his career in global health.

Dr. Henry B. Perry, III, has made a challenge gift of \$25,000 to the Henry B. and Lillie Perry, Jr. Endowment Fund with the hope that other descendants of H. B. and Lillie Perry will collectively make a similar contribution by January 2023.

The total value of this fund as of 1/31/2022 is \$85,538.
